20 November 1959

25X1A

[REDACTED] called to say that he had several people going to the west coast who wanted to travel on jet aircraft. He said that the regular first-class fare was \$343. The regular fare on a jet was \$365; however, they have an economy fare of \$251.79. I told him that he should permit his people to go on the economy fare if they chose to do so.
